

EHF350

FUSIONMASTER® EHF350 (electric hydraulic pump)

butt welding kit for pipe and fittings - 355mm to 110mm

Features

- Robust, reliable and low maintenance.
- Electric hydraulic power pack enables presetting of 3 independent pressures.
- Unique pipe alignment mechanism overcomes pipe diameter mismatch.
- Wheels removeable for trenchwork.
- Easy one man operation.
- Joints rapidly prepared with the powerful multi speed facer.
- Self centring fittings chuck - no simpler way to hold stub flanges.
- Heater provides controlled uniform surface temperature.
- Heater achieves working temperature in less than 15 minutes.
- Replaceable non stick cloth system for heater plate reduces production downtime.
- Accessories for pipe and fittings.

(The HF350 manual hydraulic pump version is also available.)

Component Data

Butt machine including facer	1230L x 690W x 1000High	178kg
Hydraulic unit	0.37kw, 240volt, single phase 480L x 425W x 250High	27kg
Heater plate	400mm diam. 2400 watt, 240 volt	12.4kg
Facer	1150 watt, 240 volt; one blade per side	
Fittings chuck		8.6kg
Heater stand		12kg
Accessory case	530L x 400W x 320High (volume 0.07m ³)	11kg
Shipping crate (with hydraulic unit)	1470L x 750W x 1200High (volume 1.32m ³)	approx. 360kg

(Minimum recommended portable generator output for field use is 5kva, 240v, single phase.)
